**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### **Summary**

1. Receipt of IDS filed on 04/22/05 is acknowledged.

### ***Restriction/Election***

Applicant's election with traverse of Group II, claims 8-14 in the reply filed on 04/03/09 is acknowledged. The traversal is on the ground(s) that the cited reference teaches allergic rhinitis and not asthma, as such there is unity in the invention. This is not found persuasive because the cited art discloses allergic rhinitis treatment and as applicants themselves admit in instant specification on page 1, paragraph [0004] that both asthma and allergic rhinitis are associated with an increased reactivity of the airways on exposure to environmental allergens. In view of such, one would expect treatment of asthma with atomoxetine since the causative factor for allergic rhinitis and asthma is similar. Hence there is lack of unity in the claims.

The requirement is still deemed proper and is therefore made FINAL.

Applicant's election of atomoxetine HCL salt is also acknowledged.

Claims 1-7 and 15-21 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 04/03/09.

Accordingly, claims **8-14** are under prosecution.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 8-14 are rejected under 35 U.S.C. 102(e) as being anticipated by Arneric (US PG pub. 2004/0235925 A1).

Arneric discloses a method for treating inflammation or an inflammation associated disorder in a subject in need of by providing atomoxetine and cyclooxygenase-2 selective inhibitor (see abstract).

The reference teaches treatment of inflammatory disorders such as asthma, see paragraph [0470] on page 45. The reference teaches Atomoxetine may be obtained

from any source and refers to USP 4,314,081 for the preparation of atomoxetine. (Note: The reference USP 4,314,081 teaches using Atomoxetine HCl salt.)

***CITED AS INTEREST***

The reference of USP 4,314,081 has been cited as interest. The reference teaches preparation of atomoxetine HCl salt which has been used by Americ (US PG pub. 2004/0235925 A1).
